Research Papers

Seasonal predictability of the summer hydrometeorology of the River Thames, UK
R. L. Wilby, C. S. Wedgbrow and H. R. Fox 1
Comparison of naturally-occurring chloride and oxygen-18 as tracers of interbasin groundwater transfer in lowland rainforest, Costa Rica
D. Genereux 17
Soil–landscape delineation to define spatial sampling domains for hillslope hydrology
S. J. Park and N. van de Giesen 28
Temporal dynamics of stream water chemistry in the last free-flowing river draining the western Sierra Nevada, California
D. S. Ahearn, R. W. Sheibley, R. A. Dahlgren and K. E. Keller 47
Nutrient inputs to the coastal ocean through submarine groundwater discharge: controls and potential impact
C. P. Slomp and P. Van Cappellen 64
Salt and nitrate concentrations in the surface waters of the CR-V irrigation district (Bardenas I, Spain): diagnosis and prescriptions for reducing off-site contamination
J. Causapé, D. Quílez and R. Aragüés 87
Regionalization of extreme precipitation estimates for the Alabama rainfall atlas
S. R. Durrans and J. T. Kirby 101
Regional rainfall intensity formulas based on scaling property of rainfall
P.-S. Yu, T.-C. Yang and C.-S. Lin 108
Analysis of alternative measurement strategies for the inverse optimization of the hydraulic properties of a volcanic soil
A. Ritter, R. Muñoz-Carpena, C. M. Regalado, M. Vanclooster and S. Lambot 124
Soil erosion due to rainfall impact with inflow: an analytical solution with spatial and temporal effects
W. L. Hogarth, J.-Y. Parlange, C. W. Rose, G. C. Sander, T. S. Steenhuis and A. Barry 140
Fluid residence times within a recirculation zone created by an extraction–injection well pair
J. Luo and P. K. Kitanidis 149
Sediment entrainment and transport in fluviokarst systems
T. Dogwiler and C. M. Wicks 163
Geophysical evidence for peat basin morphology and stratigraphic controls on vegetation observed in a Northern Peatland
X. Comas, L. Slater and A. Reeve 173
Continental differences in the variability of annual runoff-update and reassessment
M. C. Peel, T. A. McMahon and B. L. Finlayson 185
Surface moisture and energy exchange from a restored peatland, Québec, Canada
R. M. Petrone, J. S. Price, J. M. Waddington and H. von Waldow 198
Effects of distribution-based parameter aggregation on a spatially distributed agricultural nonpoint source pollution model
E. Chen and D. S. Mackay 211
Assessment and management of long-term nitrate pollution of ground water in agriculture-dominated watersheds
M. N. Almasri and J. J. Kaluarachchi 225
Improved streamflow forecasting using self-organizing radial basis function artificial neural networks
H. Moradkhani, K.-l. Hsu, H. V. Gupta and S. Sorooshian 246
Evaluation of the time-domain reflectometry (TDR)-measured composite dielectric constant of root-mixed soils for estimating soil-water content and root density
M. A. Mojid and H. Cho 263
Overland flow generation in two lithologically distinct rainforest catchments
S. Godsey, H. Elsenbeer and R. Stallard 276
Rainfall induced chemical transport from soil to runoff: theory and experiments
B. Gao, M. T. Walter, T. S. Steenhuis, W. L. Hogarth and J.-Y. Parlange 291
Baseflow contribution to nitrate-nitrogen export from a large, agricultural watershed, USA
K. Schilling and Y.-K. Zhang 305
